W\* a deliverable is a formal output produced by a (EU) project

## Content Summary

The first phase of data collection on training offered by **MoniQA partners** resulted in a database containing more than **300 training courses**. The aim of the second tranche was to collect additional training opportunities offered by **external organisations**. To this end, a short Excel based questionnaire was developed and distributed among partners.

The questionnaire was divided into two sections; the first dealing with the host institution. For every organisation that offers relevant training the name, contact details (Website), type (e.g. private, University), and short description was included. The second part of the questionnaire was about the courses and. asked about duration, teaching language, and target audience as well as providing a short description of the topic.

The information was reviewed by selected partners and by BOKU, compiled and added to the database, which identifies both internal (300) and external training courses (800).

---

### About MoniQA – [www.moniqa.org](http://www.moniqa.org)

MoniQA ("Monitoring and Quality Assurance in the Food Supply Chain") is a Network of Excellence (NoE) funded by the European Commission under the 6th Framework Programme. The Network aims to make food safer by harmonising methods for food analyses. The project is coordinated by the Vienna-based International Association for Cereal Science and Technology (ICC). More than 155 researchers and scientist from 33 international partners from 20 countries are involved in MoniQA.

**Join us!**

MoniQA offers associated partnerships for interested organisations, SMEs and institutions.
