Joint IAM/MoniQA Workshops 2008-2014

For Codex Alimentarius CCMAS, Budapest, Hungary

- “Sampling: New Approaches in View of Codex Standards”, 2014
- “Qualitative Methods: Towards Harmonized Protocols and Guidelines“, 2013
- “Choosing The Right Laboratories For Official Control“, 2012
- “Methods for Food Identification and Authenticity - Characterizing the Unknown“, 2011
- “Codex Methods of Analysis: What, When, Why, How to Use?“, 2010
- “Method Performance and the Criteria Approach: Truth and Consequences“, 2009
- “Measurement Uncertainty Workshop“, 2008

IAM – InterAgency Meeting

www.aocs.org/meetings/iam/

A series of meetings of international organisations working in the field of methods of analysis and sampling of food products and associated quality assurance measures.

26th INTER-AGENCY MEETING (IAM-26)

1st March 2014

Budapest

HUNGARY

IAM's Aim

The aim of the Inter-Agency Meeting (IAM) is to **promote co-operation** between international organisations (INGOs and IGOs) working on **methods of analysis and sampling** and the associated quality assurance measures, and to **support the needs of the Codex Alimentarius Commission**.

The Commission is an inter-governmental organisation considers and sets standards for food products in international trade. Standards may address compositional, additive or contaminant issues. In addition, the Commission elaborates methods of analysis and sampling to “enforce” such standards.

The IAM provides a unique opportunity for those organisations working in the food analysis sector **to discuss common problems** and the opportunities **to harmonise approaches** to be ultimate benefit of the users of the products of organisations working in the area of analytical methods.

InterAgency Meeting (IAM) - Activities

- **Develops** and/or recommends common rules for the validation of methods of analysis and sampling and associated quality assurance measures;
- **Assists** the Codex Alimentarius Commission in its need for methods of analysis and sampling and associated quality assurance measures;
- **Promotes** co-ordination between the organisations concerned;
- **Addresses** problems which require international collaboration; and
- **Promotes** uniformity of terminology relative to its field of activity

IAM Members

- AACC International
- Association of American Feed Control Officials (AAFCO)
- AOAC International (AOAC), AOAC RI
- AOAC (Europe)
- American Oil Chemists Society (AOCS)
- Bureau International Des Poids Et Mesures (BIPM)
- Codex Alimentarius Commission (CAC)
- Collaborative International Pesticides Analytical Council (CIPAC)
- EURACHEM
- European Committee for Standardization (CEN)
- European Organization for Quality (EOQ)
- International Association for Cereal Sciences & Technology (ICC)
- International Atomic Energy Agency (IAEA)
- International Commission for Uniform Methods of Sugar Analysis (ICUMSA)
- International Dairy Federation (IDF)
- International Federation of Fruit Juice Producers (IFU)
- International Federation of Glucose Industries (IFG)
- International Office of Cocoa, Chocolate and Sugar Confectionery (IOCCC)
- International Organization for Standardization (ISO)
- International Union of Microbiological Societies (IUMS)
- International Union of Pure & Applied Chemistry (IUPAC)
- International Wine and Vine Office (OIV)
- Joint FAO/IAEA Division of Nuclear Techniques in Food & Agriculture (IAEA)
- International Association for Monitoring and Quality Assurance (MoniQA)
- Nordic Committee on Food Analysis (NMKL)

MoniQA Association

MoniQA Global Food Safety Network

...providing expertise and services for effective food safety management..

...for food manufacturers, food retailers, international trade, food analytical laboratories, food control and regulatory bodies

- Non profit-distributing association
- Established in July 2011
- Membership based
- Secretariat at ICC HQ in Vienna, Austria

Mission Statement

MoniQA – International Association for Monitoring and Quality Assurance in the Total Food Supply Chain is an international and interdisciplinary **network of professionals** from institutions working in food research, regulatory bodies and trade, **providing solutions to promote a safer and secure food supply worldwide.** MoniQA facilitates **international research collaborations** to enable services and products for food safety & quality assurance. MoniQA contributes to the development and **validation of analytical methods**, provides **training and continuous professional development (CPD)**, consultancy and socio-economic impact assessment.

What do we provide?

- **Privileged information**
- Online tools and databases
- Facilitating guidelines, protocols, links, and scientific publications
- Participation in Technical Committees (ISO, CEN, Codex, etc.)
- **Training workshops, webinars, and educational courses**
- Scientific conferences and a platform for networking and cooperation
- Facilitate participation in International **Collaborative Research Projects**
- Fund raising and project management services
- **Reference Materials and validation studies**
- Mobility and exchange programs
- Supporting work for better future regulations

Programme (1)

- 1.00 pm** Registration
Sándor Tömösközi and Team, Hungary
- 1.30 pm** Opening on behalf of IAM and MoniQA
Richard Cantrill, USA and Roland Poms, Austria
- 1.40 pm** Introduction to sampling issues including an outline of acceptance sampling, *Roger Wood, United Kingdom*
- 2.10 pm** Sampling commodity goods and interpretation of the compliance with maximum limits from the producer/exporter and the competent authority/importer sides, *Árpád Ambrus, Zsuzsa Farkas, Zsuzsanna Horvát, Kata Kerekes, Hungary*
- 2.40 pm** Sampling uncertainty
Steve Ellison, United Kingdom
- 3.10 pm** Sampling based on the NMKL Guide
Astrid Nordbotten, Norway

Programme (2)

3.40 pm Break

4.00 pm NZ joint industry-government programme project on sampling
Roger Kissling, New Zealand

4.30 pm How does this meet Codex requirements? Future of sampling?
Roger Wood, United Kingdom

5.00 pm Close

Have a successful Workshop!

4th MoniQA International Conference

26 February – 1 March 2013, Budapest, Hungary

Have a successful Workshop!

4th MoniQA International Conference

26 February – 1 March 2013, Budapest, Hungary

**...see you at the 5th MoniQA International Conference
in Porto, Portugal, September 2015!**
